HP Photosmart C4700 All-in-One Printer. HP Photosmart C4700 All-in-One Printer is a black, grey or silver Inkjet printer intended to be used by consumers to print photos. It prints photos in black and white with 10 pages per minute. I've been trying to print from my HP Photosmart C4700 All-in-One Printer but can not find any instructions to download the drivers needed to get this to work. I've tried the Windows Drivers which no longer work for some reason. The instructions on the HP website say to download the drivers but there are no links. If anyone can help with this it would be very much appreciated. A: Download and install latest driver. Click Start -> type in "Windows Update" -> click on "Check for updates". After it finishes click on "Install driver software". If you have a printer with no internet connection, you can download printer drivers directly from the manufacturer's website. Go to the manufacturer's website for your printer model. Click on the tab "Downloads".

Click on the link "Download drivers". You will be redirected to a web page that will install the driver automatically. Instructions to download and install printer drivers for Windows 7 and Windows Vista. Choose the Language of your choice Click on "Download" on the right-side. Click on the Download link that will be available in English and your language. Click on Save. Close all browsers and start over again. Open the setup.exe file. Click Next. The setup will start. Click Next. Now it is up to you to configure the printer settings, or you can use the Default Settings. Click Next. Choose "Install the driver". You will be redirected to the Download website. Click
