Q: How do I access user accounts in Keycloak after the admin account is created? I have an application that uses Keycloak to provide authentication. Users are created and are able to log in, but I don't know how to access the Keycloak user accounts. They don't appear on the admin console, and I'm not sure how to get to them. Thanks in advance! A: You need to go to the application and edit the roles, then add the user roles, and make sure that they are allowed to access the administration of the application. Q: How do I get the primary key from a table name I am trying to get the primary key of a table called 'myTable' from a variable 'tablename' I have tried this which doesn't work: `SELECT max(id) FROM {tablename}` I am getting this error: error 1064: You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near 'max(id) FROM {tablename}' at line 1 Use `get_keys()` function: `SELECT max(id`
