VERIFIED Air Aces

Pacific

Air Aces: Pacific, a game of air combat with a new approach to the arcade genre. Take off and dive in air battles over the Pacific Ocean. You can turn into an ace sniper, fighting with more maneuverable aircraft, or become a real kamikaze, showering missiles at the enemy. In both cases, you will have to destroy enemy planes, passing through pre-retracted attacks, rockets and bombing. Also at the disposal of the hero is a set of bombs and missiles, after the use of which you can return to the base for a new flight. A very pleasant and unusual immersion in the world of such an air war. The choice of location for the game is determined by the choice of the type of simulator: a total of four locations: New York City, Los Angeles, San Francisco and Tokyo. In each of the cities you have to complete a certain mission. In New York, this is the capture of an enemy airfield, in Los Angeles, the capture of an aircraft carrier, in Sao Paulo, the destruction of Russian bases, and in Tokyo, the destruction of Japanese warships. Crowds of workers roam the cities, on which the fulfillment of your mission depends. On the city streets, you can meet reporters and locals ready to tell the curious adventurer about local news, but you will have to figure out this charade yourself.

Everything about everything will take you about five hours. The game has a self-development feature that allows the player to level up their flying skills. In addition, you can get a cash bonus, which will allow you to purchase additional parts for more advanced aircraft models. In total there are 48 cards in the game with various tasks. By finding the quest card faster than others, you can get the main prize - a trip to Japan. Journey to Japan and the Pacific Islands, like all other trips in the game, does not take much time - only two or three days. There are also a wide variety of job options. For example, you can steal documents about the tests of one of the Japanese bombers in the Pacific Ocean and get up to \$ 10,000, while seizing the documents of Russian pilots, you will receive only \$ 25,000, but there are other variations, for example, you can shoot at a ship of a mock enemy, on which several million dollars are being kept to intercept this ship and raise the money.

The entire game from start to finish takes about five minutes. By paying for the game, you get free access to it, which allows you to download it from the Internet. The small budget of the game does not allow you to build more expensive models of aircraft, but the usual models drop out quite often, which are much
