

Alcohol and doping are two of the biggest scandals in global sports and at FIFA we're committed to challenging these misconceptions and putting the needs and well-being of our athletes and fans at the forefront of our game development. We believe that realism should follow real sports. We have a license to bring FIFA back to the most popular sport on the planet and we're committed to bringing in the new reality and intelligence of the upcoming season that redefines the best football experience. Thank you for your continued support of FIFA and the FIFA family. We're committed to bringing you the most realistic, engaging and entertaining game on mobile, with the best gameplay on the new-gen mobile platforms, based on the feedback from our fans and you. The update also introduces new situational goals, damage to the goal posts, better penalty kicks, more fighting over the ball, more goal completions, more realistic distance players can run and much more in “COMBINE.” The update will be available first in Asia and other markets on Sept. 21. A redesigned mid-field, new configuration systems and two new Midfield Triangle configurations, “combine” creates a double-sided midfield by combining semi-time control with full-time control. This allows users to switch seamlessly between the two control styles while retaining the intensity of semi-time control with less gamer input. The integration of the game into the new

FIFA is a simulation football video game series developed by EA Canada, published by Electronic Arts, and released on different platforms. With its ever-growing digital library, FIFA is recognized as one of the best football videogames on the market, having been named FIFA Game of the Year twenty-three times since its release. FIFA is the most successful video game franchise in the world. In the United States, more than 50 million copies have been sold, and more than 75 million worldwide. Set in the most real-to-life version of English football available on consoles, FIFA reinvents sports gaming by blending the depth, emotion, and fan experience of the real-world sport with high-end visuals and a rich roster of authentic and legendary players. The series centers around the fictional Association Football governing body, FIFA, which is based on the Federation Internationale de Football Association, a non-profit organization of national and international football associations. The latest in a series of flagship football titles, FIFA is a follow-up to the already successful FIFA Ultimate Team™ mode of gameplay, which has been regarded as the most authentic football video game experience in the world since its inception. Launched in the fall of 2013, it is published by Electronic Arts and distributed by Electronic Arts' North American subsidiary, 505 Games, and in Australia by Australian distributor Sportscreen. FIFA is the world's most popular football franchise, home to the most official players, competitions and teams of any sports videogame. The latest release, FIFA 19, was the fastest selling sports videogame of all time. Since its launch in 1996, FIFA has sold over 250 million copies globally. In October 2016, FIFA was awarded "Best Sports Videogame" in both the International Game Awards and The Game Awards, becoming the first sports videogame to receive those awards. Key Features FIFA 22 utilises an all-new 'Powered by Football' engine, which will bring the ball physics, ball control and save management closer to the real thing. This engine makes controlling the ball easier than ever, as players can predict where the ball will go. Powered by Football gives a much greater sense of individuality to players – through their Play Style, including an all-new Focus system. This mechanic allows players to alter their style of play, allowing them to play with the ball as they like. Players can also perform all-new skill moves and execute authentic reactions and celebrations, bringing match-day life to the pitch. FIFA 22 is also the first FIFA title in franchise history to be specifically developed for consoles. With the continued support of PlayStation consoles, FIFA 22 will continue to deliver the best gameplay experience for PS4, PS3, PS Vita, Xbox One and Xbox 360 players. Quick Start A new, all-new Power-Up Training for Clubs and Futsal will let players personalise their game to make it just their own. Players can now take full control of their clubs by customising formations, kits, transfers, youth players and players' contracts. FIFA Ultimate Team has been rebuilt from the ground up, with brand new cards, leagues and tournaments. The new Manager Draft mode will allow players to select the perfect team through the increasingly popular manager draft system. A brand new Game Face Mode has been created, allowing players to perfectly blend in with any identity they want. The Look Creator tool allows players to create any of the thousands of existing faces and each face can be set to a custom colour. Players FIFA 22 brings 100 players, including all the official players of the UEFA Champions League and UEFA Europa League. Players will be able to seamlessly progress their career throughout new game modes, all now featuring new abilities and facial animations. New controls also enable players to tackle and shoot more easily.
